

MAKING FLUFFY SLIME!

This slime recipe makes puffy, fluffy slime that's great for molding and mixing different colours together!

MATERIALS

- 1/2 CUP SHAMPOO
- 1/4 CUP CORN STARCH
(BUT HAVE MORE AS YOU MAY NEED IT)
- WATER
- FOOD COLOURING (OPTIONAL)
- MEASURING TOOLS (CUPS AND SPOONS)
- BOWL

PROCEDURE

1. PUT 1/2 CUP SHAMPOO AND 1/4 CUP OF CORN STARCH IN A BOWL. MIX WELL.
2. ADD 3 DROPS OF FOOD COLORING (OPTIONAL).
3. ADD 1 TABLESPOON OF WATER AND STIR. SLOWLY ADD 5 MORE TABLESPOONS OF WATER, STIRRING WELL AFTER EACH ONE.
4. KNEAD THE SLIME FOR AROUND 5 MINUTES AND ADD ANY SPECIAL INGREDIENTS. ADD MORE WATER FOR A WETTER, STRETCHIER SLIME, BITS OF POLYSTYRENE BEADS TO MAKE POPPING SLIME OR GLITTER FOR UNICORN SLIME, FOR EXAMPLE.
5. YOU WILL LIKELY NEED TO ADD MORE CORN STARCH AFTER YOU KNEAD IN ORDER TO THICKEN YOUR SLIME. ADD A TABLESPOON AT A TIME OR WATER IF IT DRIES OUT. MIX LIKE THIS UNTIL YOU FIND THE CONSISTENCY YOU WANT!
